At work, I have a Windows laptop and it uses the default keymap. At home, I have a Linux Mint laptop and I tried several keymaps, but I really can't get the same "feel" to it. I know some people are quite good at their key shortcuts skills, I'm not one of those and rely on mouse interaction quite often.

**How to set the same keymap in Windows and Linux? - IDEs ...**
I'm currently switching between macOS and Linux (Mint), and searching for a default keymap that makes that less painful. Right now, developing on my Linux desktop feels like when I switched from Qwerty to Dvorak 20 years ago - I have to stop and think "what's the shortcut" for nearly every task.
