Design History and Practice (BFA) | Parsons | The New School

Design today is a global instrument. Bernhard Bürdek traces the progress of design from its beginnings in the late 19th century, through the most significant movements of the 20th century up to those recent developments in biological engineering which will shape the 21st century. Design is now a discipline in its own right and its expertise can be incorporated within interdisciplinary processes.

Design: History, Theory and Practice of Product Design ...

Critical Design is becoming an increasingly influential discipline, affecting policy and practice in a range of fields. Matt Malpass's book is the first to introduce critical design as a field, providing a history of the discipline, outlining its key influences, theories and approaches, and explaining how critical design can work in practice through a range of contemporary examples.

Design History Theory

While design thinking has become a buzz word both inside and outside the communication design studio, the practice of design – or the social act of designing – remains relatively unstudied.

Design: History, theory and practice of product design ...

Design Studies establishes a discourse of design from multiple perspectives, viewing it as practice, process, and profession and, through its products, as part of the material or "artificial" environment. The faculty in the School of Art and Design History and Theory are leaders in this field who employ dynamic teaching methods that help designers and non-designers alike engage with the world people have made.

Matt Malpass's book is the first to introduce critical design as a field, providing a history of the discipline, outlining its key influences, theories and approaches, and explaining how critical design can work in practice through a range of contemporary examples. Critical Design moves away from traditional approaches that limit design's role to the production of profitable objects, focusing instead on a practice that is interrogative, discursive and experimental.
