Ecotec 2 4l Engine Verboom

The Ecotec was designed from inception to be able to easily handle larger displacement. The original 2.2L Ecotec I-4 has proven itself to be an excellent engine and is one of GM's highest volume engines. Adding more displacement (growing from 2.2L to 2.4L) and incorporating some other new features makes the new 2.4L Ecotec that much better ...

2.4L GM EcoTec Engines | Fraser Remanufactured Engines

The GM Ecotec engine, also known by its codename L850, is a family of all-aluminium inline-four engines, displacing between 1.4 and 2.5 litres. While these engines were based on the GM Family II engine, the architecture was substantially re-engineered for the new Ecotec application produced since 2000. This engine family replaced the GM Family II engine, the GM 122 engine, the Saab H engine, and ...

The Family II is a straight-4 piston engine that was originally developed by Opel in the 1970s, debuting in 1979. Available in a wide range of cubic capacities ranging from 1598 to 2405cc, it simultaneously replaced the Opel OHV, Opel CIH and Vauxhall Slant-4 engines, and was GM Europe's core powerplant design for much of the 1980s. The engine features a cast iron block, an aluminium head, and a timing belt driven valvetrain. The timing belt also drives the water pump. It was first used in the O

feet of torque at 4,400 rpm.

2.2-liter Ecotec Engine Specs | It Still Runs

What Are Some Typical Ecotec Engine Problems? The Ecotec engine typically has problems with its timing chain, which frequently slips and wears down after long periods of use. The tensor in the engine also suffers from damage sometimes, and the cylinders may not fire as they are supposed to, resulting in decreased engine efficiency.

What Are Some Typical Ecotec Engine Problems? | Reference.com

Excessive oil consumption may be noticed on some 2010 Equinox and Terrain models equipped with the 2.4L direct-injected 4-cylinder engine (RPO LAF). In most cases, the oil consumption rate will be one quart or more every 1,000 miles (1,609 km). This condition may not be evident until the vehicle
