Over the past 50 years, the idea of the rise of the West has been closely re-examined. Prior to the 1950s, historians believed that the rise of the West occurred because it was destined to; because Europe is the best and strongest. It was luck, fate, and destiny that helped Europe and America reach where they are today.

History of science - History of science -  
The rise of modern science: Even as Dante was writing his great work, deep forces were threatening the unitary cosmos he celebrated. The pace of technological innovation began to quicken. Particularly in Italy, the political demands of the time gave new importance to technology, and a new profession emerged, that of civil and military engineer.
